- (2) 8" (203mm) Aluminum Cone Subwoofers**
- (2) 6.5" (165mm) Aluminum Cone Woofers**
- (4) 1" (25 mm) Titanium Tweeters in Quad-Array**

The James Loudspeaker OT88Q is a high-performance tower speaker designed to deliver concert-level performance outdoors. The OT88Q features a titanium quad array tweeter for wide dispersion and crisp fidelity. It includes dual 6.5" woofers for detailed midrange and its sealed bass enclosure with dual 8" subwoofers is bi-amped for a smooth and powerful bass response. Their robust engineering and design allow the James Loudspeaker AT Outdoor Tower speakers to effortlessly deliver high SPL playback over extended periods of time.

Any AT Outdoor Tower speakers can be installed using our internal mount (a beautifully hidden mounting solution for permanent installation into hardscape), or external mount (a wider mounting plate, best suited for permanent landscape installations, or for moveable hardscape installations). For simplified installation and configuration, James Loudspeaker offers optional custom wiring harnesses. The speaker also has access through the front grille for easy in-field servicing.

Each AT Outdoor Tower may be ordered in low impedance or 70V configurations. Can be built to custom height, up to 96" (50" minimum). Available in 10 standard finishes or infinite custom finishes options.

Mounting Options:

Internal Mount
(OT88Q-IM)

External Mount
(OT88Q-EM)

Size	50 h x 10 w x 7.3 d (in) (elliptical) 1270 h x 254 w x 183 d (mm) (Add 0.25in or 6.4mm to height for EM)
Freq Response	30Hz - 24kHz ±3dB
Impedance	Subwoofer: 4 Ohms Woofer/Tweeter: 4 Ohm
Sensitivity	95dB 2.83V/1m
Power req.	Subwoofer: 250W-750W / 200W (70V) Woofer/Tweeter: 100W-300W / 100W (70V)
Subwoofer	(2) 8" (203 mm) Aluminum
Woofer	(2) 6.5" (165 mm) Aluminum Cone
Tweeter	(4) 1" (25 mm) Titanium
Finishes	Marine Powder Coat
